

# Automatic Blister Cartoning Machine

## CM-200

### Applications :

This machine used for Cartoning the Blister Bottles , Sachet in Beverages , Chemicals, Commodities , Food and Medicines .

### Technical Detail :

- |                           |                                   |
|---------------------------|-----------------------------------|
| • Production Speed        | 60 - 70 c/min                     |
| • Grammage                | Between( 250-350)g/m <sup>2</sup> |
| • Size (LxWxH)            | 105x92x30 mm                      |
| • Standard power supply   | 220V – 50Hz                       |
| • Power consumption(kw)   | 0.75                              |
| • Air consumption         | 120-160L/min                      |
| • Compressed Air Pressure | 0.6MPa                            |
| • Noise                   | <70 dB                            |
| • Weight (kg)             | 1400                              |
| • Dimensions (LxWxH)      | 3600x1100x1550 mm                 |
