

# Automatic Blister Packing Machine

FB - 140

## Applications :

It is suitable for packing capsule, tablet, big honey pill, candy, liquid ampoule, syringe, facial mask

## Technical Detail :

• Blanking frequency(times/min)	15-45
• Adjustable pulling length	30-130mm
• Max Forming area and depth(mm)	250×120×15 (customized)
• Air compressor(self-prepared)	0.6-0.8Mpa ≥0.45m <sup>3</sup> /min
• Mould cooling	40-80 L/h
• Power supply(Three phase)	380V/220V 50HZ 12KW
• Overall Dimension(L*W*H)	2900×750×1600(mm)
• Weight	1200kg
