# Sleeve Shrink Labelling Machine

## SSL-75

**Applications :**

It is used for sleeves labelling with shrink on round type, elliptical type, square type and curve type bottles.

# Technical Detail :

- Label length                  35-250mm
- Label thickness               0.035-0.08mm
- Label material                PET, PP, PE, PVC, OPS, etc.
- Production capacity           Max 12000BPH
- Suitable bottle diameter      28-120mm
- Suitable bottle height        150-320mm
- Power                         220/380v, 50HZ
- Overall size                  2100x1200x2000mm
- Weight                        1000kg
