Hot Ink Coder

DK-1100A

Applications :

Ink roll coding machine is suitable for all kinds of horizontal and vertical packing machines to automatic print production date, lot/ batch number & other related information

Technical Detail:

• Print Area	Axial 40mm Radial 40.5mm
• Printing Lines	T-type 13lines Max. 20 character s/line
	R-type 10lines Max. 13 characters/line
• Type	T-type 1.5, 2.0, 2.5, 3.0mm(W)*3.5mm(H)
	R-type 3.5mm(W)*3.5, 4.5, 5.5mm(H)
• Cycle Rate	Up to 300 cycles / minute
• Surface Speed	Up to 40 meters / minute
• Min. print space	70mm for 2-up Type Holder/
	38mm for 4-up Type Holder
• Type Rotation Direction	Clockwise (Fixed)/ Counter clockwise (Fixed)
• Ink Roll	36*40mm

Thermal Transfer Printer

TTP-03

Applications :

Thermal Transfer use in Intermittent & Continuous Package Machines & Labeling Machine to Print Barcode, QR code, Logo, Images, Variable data, Tables, Nutrition List, Serial Numbers etc.

Technical Detail:

|	
• Print Head	32mm, 300DPI
• Print Area	Intermittent-32mm*60mm
	Continuous-32mm*100mm
• Ribbon Size	W-33MM, L-600(Max.)
• Print Frequency	Intermittent:up to 450PPM
	Continuous:up to 40meters
• Power	AC110~220V, 50/60Hz, 150W
• Air Supply	6bar/90PSI(MAX)

Multilane Printer

NS-506M

Applications :

It is suitable for all kinds of multi-head continuous or intermittent packing machines to automatic print production date, lot number and other related information

Technical Detail:

• Driver	Stepper Motor
• Power Supply	220V/50Hz
• Power	600W
• Print Speed	300 Times/min
• Font Size	2 x 3.4 x 7.2mm
• Consumable	Ink roll
• Weight	15kg
• Dimension (LxWxH)	550x195x240mm
